# Your Submitted Press Release

Forever Shiba team is pleased to announce the World's First Dog treats powered by Crypto. It will now be possible for users to invest in a token that not only generates profits but also gives back to society.

*This is exactly what the Forever Shiba project is all about.*

Forever Shiba is the one and only decentralized meme token that provides the world's first dog treats powered by cryptocurrency. It's a unique and innovative solution that not only benefits pet owners but also the animal welfare community.

With a dedicated team, a transparent and productive vision, and a solid plan in place, Forever Shiba is set to revolutionize the pet industry and become a recognized brand in and outside of the crypto space.

## Project's Highlight

The need for the Forever Shiba project stems from the desire to create a unique use case within the cryptocurrency space and to provide a real-world solution that benefits both pet owners and the animal welfare community.

*The project aims to bring a new and innovative approach to the pet industry by selling high-quality dog treats powered by cryptocurrency.*

Moreover, Forever Shiba aims to provide a platform for pet owners to give back to the animal welfare community, as **25% of all profits** generated from the sale of Forever Treats will go towards dog shelters worldwide, voted for by the community on the website.

The Forever Shiba team is committed to ensuring the success and growth of the project, which will not only benefit its investors but also provide a positive impact on the lives of dogs globally. The project's goal is to become a recognized brand in the pet industry and expand its customer base in and outside of the crypto space.

### **Aims and Objectives:**

The aim of Forever Shiba is to become an established name in the SHIBA INU meme token space. With a dedicated team, the project intends to bring a unique use case that holds value and rewards those who have stayed loyal to the brand.

Furthermore, the goal is to become a recognized brand in the pet industry and expand its customer base both inside and outside of the crypto world.

Lastly, Forever Shiba intends to improve the lives of dogs worldwide through the sale of their dog treats and make a noticeable impact on the way these animals live and are treated.

### **Tokenomics**

The tokenomics of Forever Shiba is designed to provide value to the holders of the token while also making a positive impact on the world. The buyback and charity aspect ensures that the token is not just a speculative asset, but also a force for good.

*The Forever Shiba team is dedicated to ensuring that the tokenomics provides value to the holders, while also providing a stable and secure investment.*

The token is called FOREVER SHIBA, and its symbol is 4SHIBA. The total supply of the token is 1 billion, with 18 decimals. The token is built on the Ethereum network and follows the ERC20 standard.

The buy and sell functions of the token are set at **5%, with a 5% tax**. This structure ensures that the token is not subject to wild price swings, and that the value of the token remains stable over time.

It also ensures that the token can be easily bought and sold on various exchanges, making it accessible to a wider audience.

One of the key elements of tokenomics is the buyback and charity aspect of the project. 25% of all profits from Forever Treats will be used to buy back 4SHIBA, with the tokens being burned.

Another 25% of profits will be donated to dog shelters worldwide, chosen by the community on a monthly basis. This not only benefits the holders of 4SHIBA but also gives back to dogs in need.

The remaining 50% of profits will be reinvested back into Forever Treats to expand and improve the product range.

## Roadmap

### **First Phase –**

The first phase of the roadmap is the stealth launch, followed by the release of the V1 website and white paper. The initial marketing and community building will take place during this phase, as well as the release of Forever Treats.

### **Second Phase –**

In the second phase, 4SHIBA NFT will be released, followed by the listing on Coingecko and Coinmarketcap. The marketing efforts will be ramped up, with a focus on aggressive marketing rollout and solid partnerships.

### **Third Phase –**

The third phase of the roadmap focuses on expanding the range of Forever Treats and the release of a 4SHIBA Dapp. The project aims to be listed on Centralized Exchanges (CEX) and establish major partnerships. The marketing efforts will continue to be stepped up with a focus on tier 3 marketing.

### **Fourth Phase –**

The final phase of the roadmap is the NFT Reward Platform and the release of the V2 white paper. The team is committed to continuously improving the project and the ecosystem, making sure that the project stays relevant and innovative.

So, users can get ready to invest in a token that goes beyond just generating profits. And to be part of a project that not only benefits but also contributes to a better world.
